

## Now seeking

### Motion Graphics / VFX / CG artists (freelance basis)

#### About us:

dock10 is one of Europe's leading digital media service providers. Operating at the heart of MediaCityUK in Manchester, our clients have access to HD TV studios, digital post-production, cloud media management services and advanced connectivity options.

The post production department is a significant player in the broadcast and creative services sector and one of the largest outside of London.

#### About the role:

As an integral part of the wider dock10 post production department, a team of over 20 VFX-dedicated staff work on a wide range of projects. Our clients are Broadcasters, Advertising Agencies, Independent Production companies and national / multi-national Corporations, working on commercials, visual effects for programming, animation, graphics and VR.

We use the latest software and hardware - Flame, Maya, Adobe suite (After FX, Cinema 4D, Premiere), Nuke, and associated software.

#### What we are looking for:

We are always looking out for talented, creative individuals who will fit into this team in busy times. You will have a number of years' experience in a similar or related environment, delivering great looking jobs to high profile clients.

We operate a wide range of industry standard hardware and software, including Flame, Maya, Adobe CC, Nuke, and associated tools.

We have a highly experienced, multi-disciplined staff team, and would expect freelance talent to be able to fully integrate with the core team, or alternatively, project dependent, have the drive and initiative to work solo with one of our production team.

In the first instance, please send showreel and CV to [jobs@dock10.co.uk](mailto:jobs@dock10.co.uk)

#### How to Apply:

Simply email your CV and a brief covering letter explaining why you would be great for the role to [jobs@dock10.co.uk](mailto:jobs@dock10.co.uk) by 7<sup>th</sup> July 2017 and we'll be in touch.
