Turnaround Manager

Dock10 Studios

About us: dock10 Studios are the leading multicamera studio facility in the U.K. We are looking for a Turnaround Manager to work within our turnaround team, managing the complex logistics around scenic, lighting and stores operations, supporting studio based productions.

Operating at the heart of MediaCityUK in Manchester, our clients have access to eight HD TV studios, two radio studios, post-production and media management services.

About the role: You will be one of three operational managers that are responsible for the safe and cost-effective installation and removal of sets, lighting and rigging for shows and events in our facilities at MediaCityUK.

You will be the line manager for the small team of electrical staff working for dock10 and expected to be the lead point of contact for the production lighting electrical equipment we supply to our clients.

What we are looking for:

- Face to face customer service experience delivering under pressure and exceeding client expectations
- Experience of lighting within the broadcast and events industry is essential, experience of setting and rigging is desirable
- Experience of assembling and managing ad hoc teams to install sets and lighting rigs
- Electrical and safety qualifications / competency including NEBOSH / IOSH, BS7909 & IEE 18th Edition are desirable

We would require you

To work in a collaborative manner, seeking out innovative solutions to resolve individual production challenges and make longer term infrastructure improvements. We are a company that encourages cross boundary working especially where this will benefit our Clients, our Business and our Staff.

How to Apply:

Simply email your CV and a brief covering letter explaining why you would be great for the role to jobs@dock10.co.uk by 20th June 2018 and we'll be in touch.
