

Now Recruiting: QC Operator

About us:

dock10 is an award-winning Post Production company based in MediaCity. We deliver Post Production services to Broadcast clients in a wide range of genres including drama, documentaries, entertainment, sport and childrens.

About the role:

The QC Operator is responsible for ensuring all output from dock10 Post Production complies to current technical standards and required broadcaster specifications. QC Operators perform eyeball checks and QARs as required for finished content. QC Operators also work closely with the dock10 support, engineering and creative teams to ensure the highest technical standards are maintained.

Duties include:

- Performing daily Eyeball checks and QARs of UK and international deliverables
- Communication and coordination with Post Producers to ensure the correct and timely delivery of programmes
- Discussion and resolution of QC issues with creative and technical colleagues
- Maintaining an awareness of the latest broadcast technical specifications, standards and technologies
- Research and engagement with any new technologies in the field of mastering, QC and delivery
- Aid in the continuous improvement and implementation of QC processes and workflows

About you:

- 1+ year of experience working in a post production operations environment
- Excellent attention to detail and high standards, someone who takes great pride in their work
- A keen interest and enthusiasm for television technology
- Strong communication skills
- Someone who can share responsibility for day-to-day workload allocation within a small team
- A problem solver who can confidently and efficiently liaise with clients and staff
- An individual who can form positive relationships with clients to ensure the best possible delivery of service

dock10 are committed to creating an inclusive culture, which promotes equity and reflects and celebrates the diversity of our communities. As such we welcome applications from all sections of society, particularly those that may currently be underrepresented in our industry.

About the benefits:

We are one dock10 and are always looking at how we can support our employees. Working for us, you will have access to:

- Holidays – Enhanced holidays, with 33 days per leave year including bank holidays
- Family – Enhanced Parental pay and Life Assurance
- Pension – With dock10 matching up to 6% of your contribution
- Discounts – A wide range of retail discounts
- Travel – Get to work with Cycle To Work, electric car and car parking salary sacrifice schemes
- Wellbeing – Employee assistance programme, gym membership discounts, income protection, health cash plan and private medical cover

How to Apply:

Simply email your CV and a brief covering letter explaining why you would be great for the role to jobs@dock10.co.uk by Friday 16th February 2024 and we'll be in touch.
